

## SMART WIFI SOCKET

Model : S26

EU

UK

AU/CN

US

### Parameter:

Input voltage: 90-250V AC 50/60Hz

Output voltage: 90-250V AC 50/60Hz

Max. load: 220V 10A

WiFi standard: 2.4GHz b/g/n

### Checklist before using the device

- Your smart phone or tablet has connected to a 2.4G WiFi with internet.
- You have the correct WiFi password.
- Your smart phone or tablet must have access to APP Store, Google Play.
- Make sure your router is MAC-open.

### User Guide

- 1 Start with "EWelink" APP.

- 2 Register an EWelink account.
- 3 If you have EWelink account, just log in.

- 4 Plug S20 into power socket, power it up. The green WiFi LED will blink.

- 5 Press and hold the button for 7 seconds until the green LED blinks rapidly.

- 6 Tap + on EWelink app.

For Android, select the 1st one, click next.

For IOS, select the pairing method according to LED blinking way.

- 8 Input your WiFi SSID & password.
- 9 Name your device to complete.
- 10 When the WiFi LED is on, the device is online. Start to control now!

### Q: My device on the app stays "Offline" ?

A: The new added device needs 1-2min to connect to WiFi and the Internet. If it stays offline for a long time, please judge the problem by the green LED status:

Green led quickly blinks one time every second:  
S20 failed to connect to WiFi:

- ① Maybe you have entered wrong WiFi password.
- ② The S20 is too far away from the router, which causes a weak WiFi signal. Please take it closer. If still failed, try to delete and add again.

Green led quickly blinks twice every second:  
S20 has connected to WiFi but failed to connect to server. Please check your network connectivity.

Scan the right QR code to read the pairing instructions for Amazon Echo and Google Nest.

**FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
